

The Raw Materials Partnership

Funding transnational R&I across the value chain

Co-funded by
the European Union

RAMP supports the green and digital transition by enabling R&I that underpins the sustainable supply and efficient use of raw materials.

Partner

56

organisations

34

countries

Build a strong, international R&I ecosystem on raw materials

Span the full value chain – from exploration to recycling

Strengthen Europe's strategic autonomy and industrial resilience

Promote circularity and sustainability and inform policy

A world map illustrating the global distribution of RAMP membership. The map uses three colors to categorize countries: dark blue for committed countries, light blue for conditionally eligible countries, and green for observer countries. A purple flag icon is positioned over the European continent. The legend in the bottom left corner defines these categories. The text '(As of September 2026)' is located in the bottom right corner.

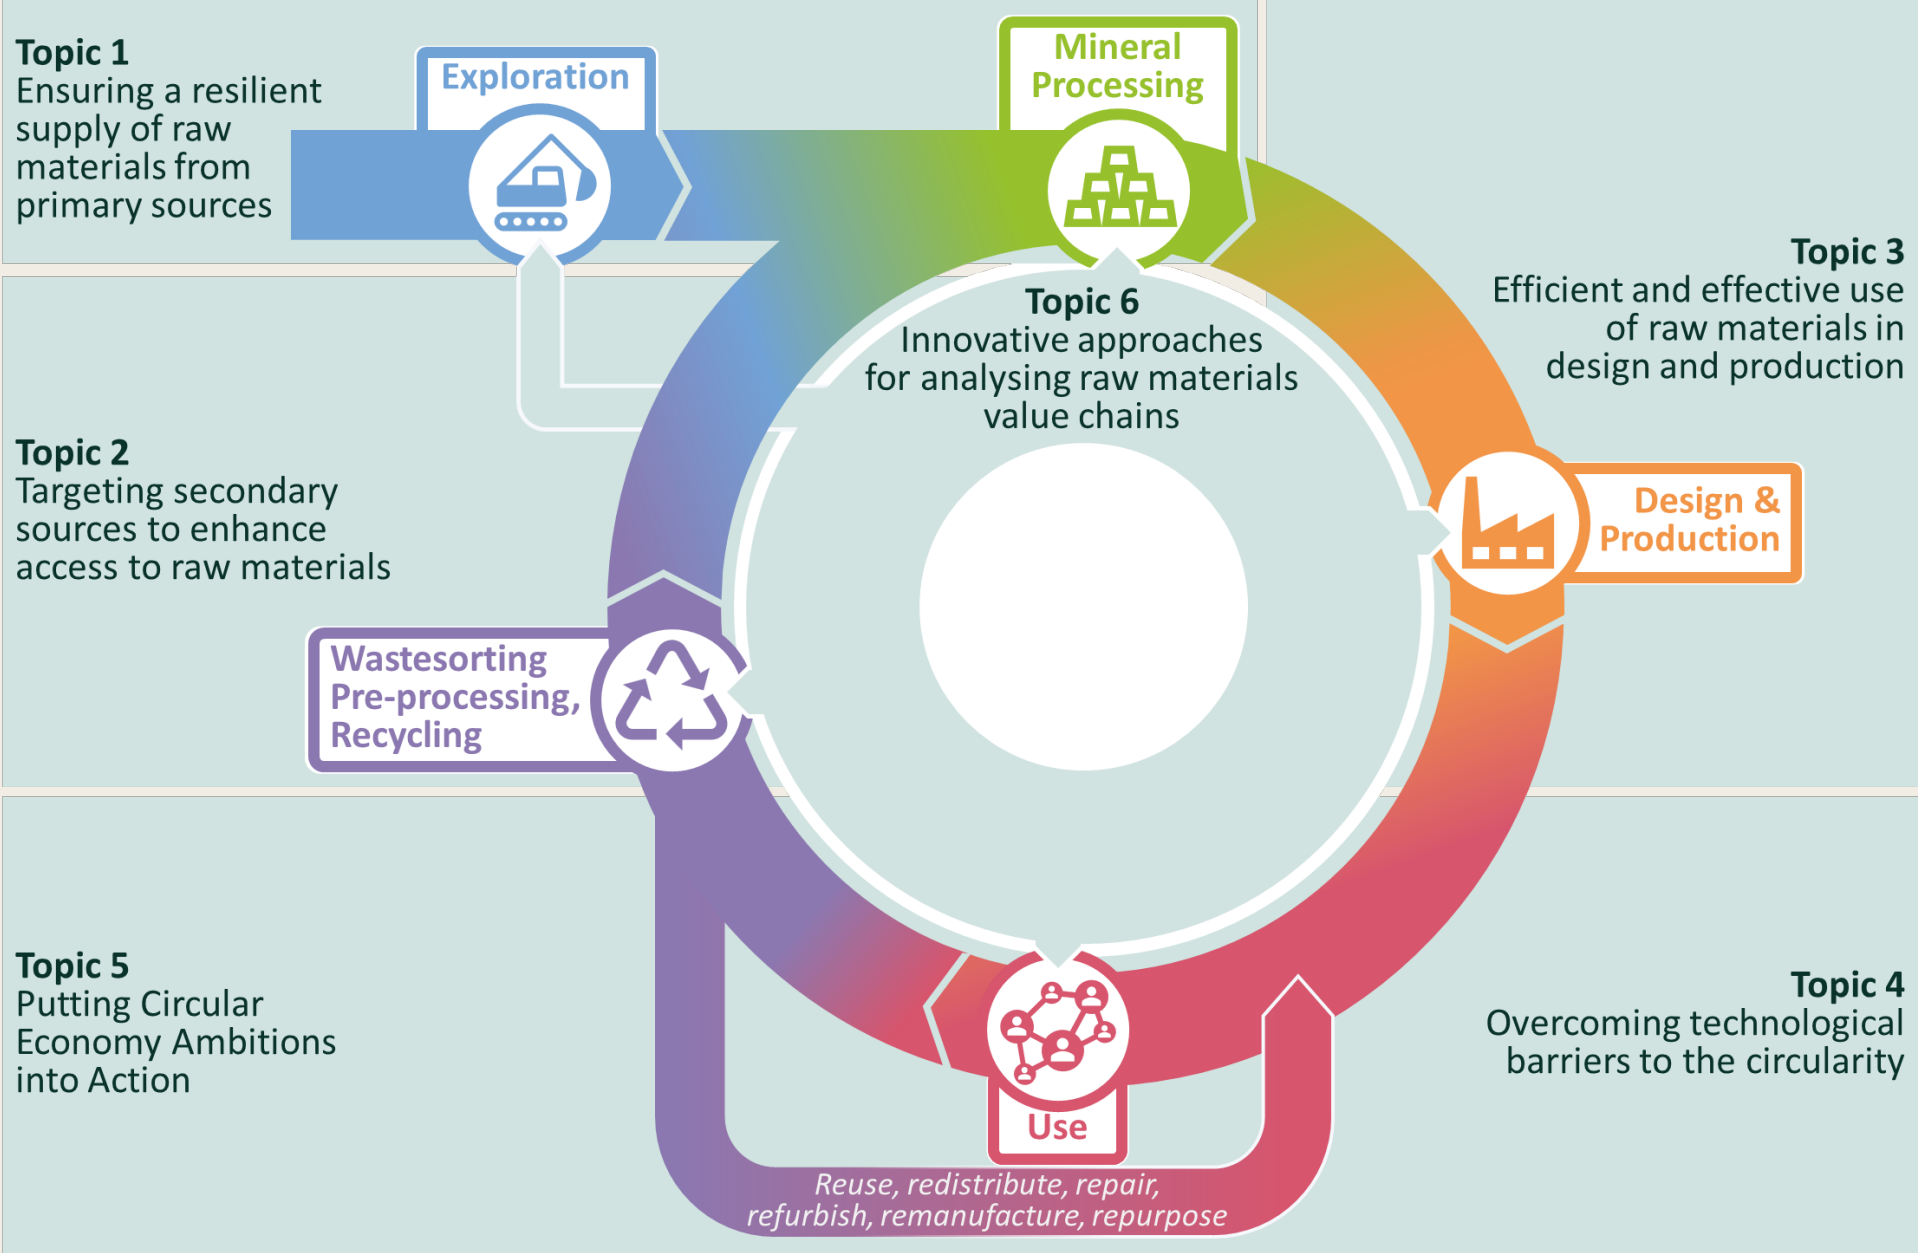

Legend:

- Committed countries
- Conditionally eligible countries
- Observer countries

(As of September 2026)

Key aspects of RAMP calls

- Will fund transnational research and innovation projects
- Two-stage application process
- Co-funded by the European Union under Horizon Europe
